

Basic Instructions to Create Stacked Monograms (Initials and Names)

- Open embroidery software
- Open 1st design (the large letter in the background)
- Save As new design (this is to ensure that you don't edit the original design file)
- Insert or Merge (your software may use a different term) the 2nd design (repeat until all have been inserted ~ remember to insert in the order you want the designs to stitch)
- Align all objects
- Transfer to your machine
- Stitch
