- **NOTE** – these files are “cutter compatible”, meaning that if you have the necessary software to convert sew files into cutting files, you can use an automated cutter [like a cricut, ioline, accuquilt or cameo] to cut your appliqué fabric instead of cutting by hand. I’m so sorry, but we do not offer any support for this function.

File Name Help:

- **448_1.1_FancyAppliqueCloudFramesNOTS** – the added “.1” and “NOTS” in the file name means No Triple Stitch on top of the Satin Stitch
- **448_1_FancyAppliqueCloudFrames** – These files are just like pictured below with the white triple stitch on top of the pink satin stitch.

The picture to the left is a sample of how this design looks stitched without appliqué fabric. We used our #1382 Reese Font & Monogram 1” high to spell “Riley” [sold separately].
