- **SEW Format Availability** – only Diamond Stitch files are available in SEW format.
- **NOTE** – these files are "cutter compatible", meaning that if you have the necessary software to convert sew files into cutting files, you can use an automated cutter [like a cricut, ioline, accuquilt or cameo] to cut your applique fabric instead of cutting by hand. I'm so sorry, but we do not offer any support for this function.

Below is are samples of how this design looks stitched.
